Course Instructor(s)	Asst. Prof. Dr. Olgica Grcheva	E-mail : olgica.grcheva@arucad.edu.tr Office : TI OFF20
Course Objectives	The colloquium aims to expose students to issues of design outside the classroom and provide exposure to different design thinking both among their peers within their departments and other students in the faculty of design. The colloquium is repeated every semester except the last semester.	
Course Learning Outcomes	**Students will be able to:**	**Teaching Methods** / **Evaluation Methods**
	1. To debate contemporary discourses in design and bring about challenges in learning throughout their design education starting from semester one	Direct instruction technique, Studio critique / Mid-term & Final Project Evaluation
	2. To connect making to thinking, and combine theory, technology and practice, accommodating design thinking and problem solving.	Direct instruction technique, Studio critique / Mid-term & Final Project Evaluation
	3. To develop skills in active participation in academic and professional discussions	Direct instruction technique, Studio critique / Mid-term & Final Project Evaluation

Course Content	The course colloquium is an assembly for discussion and is scheduled for each semester to provide a platform for the students to discuss discourses in design and talk about the topic and the conclusions they are reaching as a result of their progress in design education. The colloquium will not have formatted teaching materials.

COURSE OUTLINE/SCHEDULE			
Week	**Topic**	**Implementation (theory/practice)**	**Required Reading, Preliminary preparation**
1-2	Introduction	T	
3-14	Presentations and seminars given by the students (of whom only one is a transfer student and /or was unsuccessful in the previous colloquiums). The topic of these seminars will be outlined with the lecturer of the course. Seminars will be open to all the students.	T	See reading.
15-16	Preparation for the colloquium	T/P	Preparing the print materials, exhibition medium.
17	**Final Exam Week**

CONTRIBUTION OF COURSE LEARNING OUTCOMES TO PROGRAMME LEARNING OUTCOMES							
No	**PROGRAMME LEARNING OUTCOMES**	Level of Contribution (1-lowest / 5-highest)				
		1	2	3	4	5
1	Understand architectural history, theory, and cultural heritage, including the relationship between local/vernacular traditions and global architectural discourse.			X		
2	Understand technical knowledge and the principles of structural systems, building technology, environmental performance, and construction processes as integrated components of architectural design.	X				
3	Comprehend sustainability, ecological sensitivity, and climate-responsive design principles and their application across different scales of the built environment.	X				
4	Recognize the legal, ethical, and professional frameworks governing architectural practice, including relevant codes, standards, universal ethical values, and the principles of project management and cost estimation.	X				
5	Apply creative and critical design thinking to develop holistic architectural solutions that respond to spatial, environmental, cultural, and social challenges at local, national, and global scales.				X	
6	Produce professional drawings, models, technical documentation, and digital/parametric visualizations that effectively communicate architectural proposals at all stages of design.	X				
7	Conduct systematic, evidence-based research and apply critical evaluation methods to inform and validate design decisions throughout the design process.			X		
8	Integrate interdisciplinary knowledge — spanning art, engineering, ecology, and social sciences — to produce innovative and contextually sensitive design outcomes.			X		
9	Demonstrate professional and ethical responsibility, with sensitivity to environmental sustainability, socio-cultural diversity, and the well-being of communities served by architectural practice.	X				
10	Collaborate effectively in interdisciplinary and intercultural teams, demonstrating leadership, communication, and project management competencies in design and professional contexts.				X	
11	Communicate architectural ideas persuasively and clearly in verbal, visual, and written form to professional, academic, client, and public audiences.					X
12	Engage in continuous self-reflection, lifelong learning, and active contribution to the evolving architectural profession at local, regional, and international levels.				X

ASSESSMENT DETAILS AND EVALUATION CRITERIA	
Final grades will be determined based on the course learning activities and the assessment details for the final examination or project, as outlined below, in accordance with the University's Education and Examination Regulations. Students are required to attend at least 70% of the classes. The maximum allowable absenteeism is 30%. The assessment will be based on students' attendance at the seminars given throughout the semester and the active presence in the preparation of the colloquium exhibition, report, and participation in the colloquium discussions to be marked as Satisfactory and Unsatisfactory.
