PROGRAMME TEACHING OBJECTIVES

INTERIOR ARCHITECTURE AND ENVIRONMENTAL DESIGN - Programme Teaching Objectives

PTO	Teaching Objective
PTO1	Practice interior architecture and environmental design by creating meaningful, human-centred interior environments that integrate spatial, material, ergonomic and ecological considerations.
PTO2	Apply sustainable design strategies and adaptive reuse methodologies to the conservation and transformation of heritage and contemporary buildings.
PTO3	Engage critically with the history and theory of interior architecture, art and design, relating local cultural values and craftsmanship traditions to global design perspectives.
PTO4	Practice responsibly and ethically, respecting cultural diversity and universal accessibility in service to the communities their work affects.
PTO5	Employ innovative design tools and emerging technologies, integrating traditional craftsmanship with contemporary digital methods.
PTO6	Collaborate effectively within interdisciplinary and intercultural professional teams, demonstrating leadership and project management.
PTO7	Pursue continuous self-development and lifelong learning, contributing through research and practice to the cultural and intellectual enrichment of communities locally, regionally and globally.
