

## **PLASTIC ARTS PROGRAM EDUCATIONAL OBJECTIVES**

### **PEO1**

Graduates sustain their careers as artists who reflect their knowledge of art history, art theory, and contemporary art practices into artistic production processes, demonstrate sensitivity toward current artistic approaches, and produce independent artistic works.

### **PEO2**

Graduates engage in artistic production as practitioners who create original artworks using different materials, techniques, and production methods, develop their own artistic language, and continuously improve their technical competencies.

### **PEO3**

Graduates continue their professional practices as art professionals who integrate research, conceptual thinking, and interdisciplinary approaches into artistic production processes and develop original projects.

### **PEO4**

Graduates function as art professionals who are able to present their artistic works in professional environments, prepare portfolios, manage exhibition processes, and effectively conduct career development processes within the field of art.

### **PEO5**

Graduates sustain their careers as art practitioners who actively participate in national and international art environments through interdisciplinary approaches and contemporary production methods, and who are capable of producing work within diverse cultural and professional contexts.
